Re: Information Request Letter Related to Stringfellow Superfund Site

Dear Ms. Van Veldhuizen:

The United States Environmental Protection Agency ("EPA") is spending public funds to investigate and respond to actual or threatened releases of hazardous substances, pollutants, and contaminants into the soil and groundwater from the Stringfellow Superfund Site (the "Site") in Riverside County, California. This letter seeks your cooperation in providing information and documents you may have pertaining to the Stone Valley Material LLC (the "Company") facility currently or formerly located near the Site. The term "Site" as used herein refers to the properties in or near Pyrite Canyon that surround the former Stringfellow hazardous waste disposal area.

As part of its ongoing investigation of the Site, EPA is seeking to identify activities and parties that have or may have contributed to contamination at the Site. EPA believes that the Company may have information that will assist the EPA in its investigation, especially with regard to perchlorate releases. EPA requests that the Company answer the questions contained in Enclosure B. Definitions and instructions on how to respond to the questions are provided in Enclosure A.

Under Section 104(e) of Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. §9604(e), EPA has broad information-gathering authority that allows EPA to require persons to furnish information or documents relating to:

- (a) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility.
- (b) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility.
- (c) Information relating to the ability of a person to pay for or perform a cleanup.

Please note that the Company's compliance with this information request is mandatory. Failure to respond fully and truthfully may result in an enforcement action by EPA pursuant to Section 104(e)(5) of CERCLA, 42 U.S.C. §9604(e)(5). This statutory provision authorizes EPA to seek the imposition of penalties of up to \$37,500 per day of noncompliance. Please be further advised that provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. §1001. The information the Company provides may be used by EPA in administrative, civil, or criminal proceedings.

Some of the information EPA is requesting may be considered by the Company to be confidential. Please be aware that the Company may not withhold information upon that basis. If the Company wishes EPA to treat the information confidentially, it must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting its claim for confidentiality.

This request for information is not subject to review by the Office of Management and Budget ("OMB") under the Paperwork Reduction Act because it is not an "information collection request" within the meaning of 44 U.S.C. §§3502(3), 3507, 3512, and 3518(c)(1). See also, 5 C.F.R. §§1320.3(c), 1320.4, and 1320.6(a).

We encourage the Company to give this matter its immediate attention and request that it provide a complete and truthful response to this information request within thirty (30) calendar days of its receipt of this letter. EPA is committed to moving forward with its investigation, and extensions of time for responses will only be granted upon a showing of good cause and for no more than 30 days. If the Company anticipates that it will need an extension, please request one as soon as possible. Requests for extensions made at or near the due date will not be viewed favorably by EPA. The Company's response to this letter should be made in writing and signed by you or a duly authorized representative of the Company. If some or all of the requested information has previously been provided to EPA, the Company may incorporate that information by referencing the date of the earlier response and the information contained therein that is responsive to the current information request.

The Company's response should include the appropriate name, address, and telephone number of the person to whom EPA should direct future correspondence in regard to this information request.

The Company's response to the information request should be directed to:

Keith Olinger, Enforcement Office (SFD-7-5)
U.S. EPA, Region 9
75 Hawthorne St.
San Francisco, CA 9410

If the Company has any questions regarding this letter, please contact Mr. Olinger at (415) 972-3125 or olinger.keith@epa.gov. Questions regarding the Site's cleanup status should be directed to the Remedial Project Manager, Julie Santiago-Ocasio, at (415) 972-3525 or santiago-ocasio.carmen@epa.gov. Questions regarding legal matters can be directed to Andrew Helmlinger at (415) 972-3904 or helmlinger.andrew@epa.gov. Thank you for your prompt attention to this matter.

Sincerely,

- (g) To make a confidentiality claim, please stamp, or type, "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise nonconfidential documents should be clearly identified. The Company should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit the Company's response so that all nonconfidential information, including any redacted versions of documents, are in one envelope and all materials for which the Company desires confidential treatment are in another envelope.
- (h) All confidentiality claims are subject to EPA verification. It is important that the Company satisfactorily show that it has taken reasonable measures to protect the confidentiality of the information and that it intends to continue to do so, and that the information is not and has not been obtainable by legitimate means without the Company's consent.
